

PUBLIC INFORMATION AND TRAINING CENTER AND GIS “MLADOST”

Summary:

- The present project for exchange is connected with the forthcoming realization of projects, initiated by AGENCY FOR SUSTAINABLE DEVELOPMENT AND EUROINTEGRATION-ECOZONE SOFIA (ASDE) for establishment of eco-educational-information center including a public cable digital television ECOVISIA in Sofia, which will carry out its activities based on the new information and communication technologies (ICT-s).
- In the present project for exchange from Bulgaria will be included experts and moderators directly taking part in the management, planning and realization of the eco- educational-information center including a public cable digital television ECOVISIA – Sofia.

The aims are:

- The participants are to upgrade their competencies, qualification, practical knowledge and experience in real work situation for running of the projects for professional education and training, based on new informational and communicational technologies /ICT-s/ in form for lifelong learning perspective, open and distance training.
The exchange envisages a training program in [Anima Mundi pscl Educazione Comunicazione Formazione Ambientale Corso Ubaldo Comandini 15 - 47023 Cesena FC](#). The users will study the equipment, the functioning and the training programs and tools.
Will be organized a Workshop for planning of strategy of partnership in the field of education, using ICT-s, in programs and tools in the field of preservation of the environment, sustainable development between institutes from EC countries and CEE countries;

The present project is motivated by ASDE' innovative strategy, based on:

- the project for environmental management of Ecozone Sofia-East - PHARE Project BG 9310-03-05-05; in 1996
- the elaboration of Municipal program for sustainable development and Eurointegration - "Local Agenda 21" for the city of Sofia;
- the elaboration of Municipal program for sustainable development and Eurointegration - "Local Agenda 21" for the city of Plovdiv;

The benefit of the exchange and the partnership will be considerably multiplied by the center and TV activities in the next stage of the project development as well as by the good contacts of ASDE with their mass-media
